EXAMINER'S AMENDMENT

Election/Restrictions

1. Claims 1 and 30 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 13, 14, 17, 27, 34, 35, 36, 38, and 40, directed to the species and all following sub-species of the paper of 10/12/04 no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

a. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Authorization for this examiner's amendment was given in a telephone interview with Beverly E. Hjorth on 7/20/05.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

3. This application is in condition for allowance except for the presence of claims 45-60 to inventions non-elected without traverse in the paper filed 7/27/04. Accordingly, **claims 45-60 have been cancelled.**

4. Claims **1-27,29,30 and 33-44** are allowed.

5. The following is an examiner's statement of reasons for allowance:

- b. Claim 1: The prior art of record all failed to show either alone and/or in combination a joined wing craft with forward and aft wings having an airfoil profile and also moving in the same direction along a path when they extend from a folded or stowed position. Also the wing roots of the forward and aft wings being located closer to the nose of the craft when stowed than in the deployed position.
- c. Claim 30: The claim having all the limitations of claim 1 is allowed for the same reasons.
- d. See interview summary for details of the consideration of the attached signed 1449, (the 1449 submitted to the examiner 7/20/05 has been considered).
